

Fatima Asad-Said is an integral member of the top leadership at Abacus Consulting, a leading international professional services firm committed to transforming clients by delivering world class technology, outsourcing, consulting and training solutions. With a rich professional experience spanning over 25 years, Fatima is known for her thought leadership and innovative solutions in areas including Corporate Governance, Digital Transformation, Strategic Change, Human Capital Management, Enterprise Technology Solutions, and Project Leadership across diverse sectors and industries.

An MBA from LUMS, Fatima started her career with Coopers & Lybrand International and later on joined PricewaterhouseCoopers. Her leadership journey includes serving as an Independent Director on the Boards of various prominent organizations such as Lahore University of Management Sciences (LUMS), Faysal Bank, Kashf Foundation, Bata Pakistan and Kaarvan Crafts Foundation. She holds a Corporate Director Certification from Harvard Business School, and is a member of the Harvard Corporate Directors, Diversity and Inclusion Hub Leadership Council, and Women Executives on Boards forums.

Fatima continuously invests in her learning and development through trainings and certifications and is a sought-after speaker on leadership, governance, diversity and inclusion. She is deeply committed to social responsibility and her engagement with not-for-profit organizations such as Kashf Foundation and Kaarvan Crafts Foundation has provided wonderful opportunities to create value and positive impact for the communities. She has also provided pro bono professional advice to institutions including SIUT, Imran Khan Foundation, and TCF, and has made valuable contributions to Pink Ribbon, SKMT, TCF, UNICEF, etc. Her community engagement efforts further exemplify her dedication to causes related to education and female empowerment.

In addition to her family responsibilities, she enjoys cycling, travelling, watching cricket, and reading books on historical events.
